COM-129.E-V (2012-05)

This document contains two source deduction tables for Québec Pension Plan (QPP) contributions and a table showing the exemptions for irregular pay periods.

If you have 52, 26 or 24 pay periods in the year, use **table A** to determine the amounts to be withheld as QPP contributions from the pensionable salary or wages of employees who have continuous employment. **Table B** applies to non-continuous employment.

This document should be used in conjunction with the *Guide for Employers* (TP-1015.G-V), which contains detailed information concerning QPP contributions.

Note

If you have 12 pay periods in the year, you should refer to the publication entitled *Source Deduction Tables for QPP Contributions: 12 Pay Periods* (TP-1015.TR.12-V), which can be printed out from our website, or ordered online or by telephone. See the contact information at the end of this document.

Principal changes

The QPP contribution rate has been increased from 10.05% to 10.20% for 2013, which corresponds to a contribution rate of 5.10% for the employee and 5.10% for the employer. In addition, maximum pensionable earnings for the purposes of the QPP have been increased from $50,100 to $51,100. The maximum annual contribution to be withheld for any employee has therefore been increased from $2,341.65 to $2,427.60.

Important

Overtime pay, retroactive pay, bonuses, and similar amounts are considered wages if they are paid along with the employee's wages. If they are paid separately, do not use the following tables; instead, deduct 5.10% of the gross amount without taking the exemption into account.

Contents

QPP contributions – Table B: Non-continuous employment

Rate per hour

The amount to withhold from the remuneration is obtained by multiplying the deduction corresponding to the rate per hour by the number of hours for which remuneration is paid.

QPP contributions – Table B: Non-continuous employment

Rate per day

The amount to withhold from the remuneration is obtained by multiplying the deduction corresponding to the rate per day by the number of days for which remuneration is paid.

Pay period exemption – Continuous employment

Irregular pay period

This table enables you to rapidly locate the exemption that applies to the number of days included in an irregular pay period. An irregular pay period begins on one of the following three dates, depending on which is the closest to the date on which remuneration is paid: January 1 of the current year, the date on which the employee was hired, or the date on which the employee received his or her last pay.
