Rebate of the specific tax on alcoholic beverages and the tobacco tax 11

- The rate per litre may be different for alcoholic beverages produced by brewers or small-scale producers to which a reduction in the specific tax applies or for alcoholic beverages purchased before August 1, 2014. In these cases, we will calculate the rebate based on the information shown on the invoices provided.
- For the tax rates applicable to various tobacco products, consult the *Tobacco Tax Rate Table* (TA-1-V) on our website.
- The tobacco tax applicable to any other pre-rolled tobacco product is calculated based on either the number of grams of tobacco or the number of sticks, according to the established rate. The tax is the higher of the two results.
