

## Tax Credit for Interest on a Loan Granted by a Seller-Lender and Guaranteed by La Financière agricole du Québec

### Eligible taxpayer

This form is to be completed by any taxpayer that would like to claim the tax credit for interest on a loan granted by a seller-lender and guaranteed by La Financière agricole du Québec.

In order to claim the tax credit, the following conditions must be met:

- The taxpayer operated a business in Québec during the taxation year.
- The taxpayer was granted a loan further to an agreement entered into after December 2, 2014, and before January 1, 2025, through the Program for farm financing established under the *Act respecting La Financière Agricole du Québec*.
- The taxpayer is not exempt from income tax.
- The taxpayer is not a Crown corporation or a subsidiary controlled by such a corporation.
- The taxpayer is not a trust of which one of the capital or income beneficiaries is:
  - a tax-exempt person; or
  - a Crown corporation or a subsidiary controlled by such a corporation.

If the taxpayer is a member of a partnership that meets the aforementioned conditions, it can claim the tax credit as a member of a qualified partnership. In that case, enter the partnership's information in Part 2 and Part 3 and then determine the taxpayer's share in Part 4.

### Important information

### Special tax

If, in a future taxation year, you realize that the taxpayer should not have received all or part of the tax credit, the taxpayer must, by means of a special tax, repay the excess amount received. When completing the taxpayer's income tax return for the year in question, enter the excess amount in the space provided on that form for that purpose. For more information, refer to sections 1129.45.0.6 to 1129.45.0.10 of the *Taxation Act*.

## Notes

1. The term "assistance" refers to any government assistance and any non-government assistance that the taxpayer received, is entitled to receive or may reasonably expect to receive on or before the filing deadline of this form for the income tax year concerned. The term does not include any amount received and repaid in the year for which the tax credit is being claimed. "Government assistance" and "non-government assistance" are defined in section 1029.6.0.0.1 of the *Taxation Act*.
2. The phrase "benefit or advantage" refers to any benefit or advantage that the person or partnership obtained, is entitled to obtain or may reasonably expect to obtain on or before the filing deadline of this form for the income tax year concerned. The phrase does not refer to any amount received and repaid in the year for which the tax credit is being claimed. A benefit or advantage may be a reimbursement, compensation, guarantee or proceeds of disposition of property that exceed the fair market value of the property, or may be granted in any other form or manner.
3. The term "percentage interest" refers to the taxpayer's share of the partnership's income (or loss) for its fiscal period, divided by the partnership's income (or loss) for its fiscal period. If the partnership has no income or loss for its fiscal period, do the calculation as if the partnership had income of \$1,000,000.
4. If the taxpayer is a member of a qualified partnership through a number of groups of interposed partnerships, calculate the taxpayer's percentage interest in the qualified partnership separately for each such group, and complete the form as follows:
  - On line 30 (columns A to E), enter the required information about all the interposed partnerships in each group.
  - On line 31 (columns A to D), enter the required information about the qualified partnership.
  - On line 32, enter the taxpayer's total percentage interest in the qualified partnership (the sum of the taxpayer's percentage interests in the qualified partnership, calculated for each group).
  - Complete lines 33 and 34.
5. To determine the amount to be entered on this line, recalculate the tax credit for the previous year as if the corporation had never received, in the previous year, the assistance, benefit or advantage repaid in the year concerned. To do so, use the amounts entered on the copy of form TP-1029.8.36.VP-V completed for the previous taxation year. The amount to be entered corresponds to the amount by which the recalculated tax credit exceeds the tax credit for the previous year.
