

## Tax Credit for the Treatment of Infertility

You must complete this form if you are claiming, on line 462 of your 2021 income tax return, the tax credit for the treatment of infertility.  
Before completing the form, read the information on page 2.

### 1 Information about you and your spouse

Last name	First name	Social insurance number
Last name of your spouse (if applicable)	First name	Social insurance number

If you are claiming the tax credit for in vitro fertilization expenses paid before November 15, 2021, were you (or, if applicable, was your spouse) the biological or adoptive parent of a child? .....  Yes  No

### 2 Calculating the amount of the tax credit

#### 2.1 Family income

Amount from line 275 of your income tax return	1	
Amount from line 275 of the income tax return of your spouse on December 31, 2021 (if applicable)	+	
Add lines 1 and 2.	<b>Family income</b>	

#### 2.2 Tax credit for the treatment of infertility

Expenses paid for an in vitro fertilization activity carried out by a physician or paid after November 14, 2021, for an artificial insemination activity carried out by a physician	4	
Expenses paid for an assessment	+	
Cost of drugs that are prescribed by a physician and whose purchase is registered by a pharmacist	+	
Travel expenses	+	
Lodging expenses	+	
Add the amounts on lines 4 through 8 ( <b>maximum \$20,000</b> ).	<b>Total expenses</b>	
Rate based on your family situation and family income (see the tables on page 3)	×	%
Multiply line 9 by line 15.	=	
Tax credit claimed by your spouse on line 462 of his or her income tax return	-	
Subtract line 19 from line 16.	=	
Enter the result on line 462 of your income tax return.	<b>Tax credit for the treatment of infertility</b>	

## General Information

To claim the tax credit, you must have been resident in Québec on December 31, 2021. If you are claiming the credit for a person who died in 2021, he or she must have been resident in Québec on the date of his or her death.

You can claim the credit for eligible expenses that you paid in 2021 for an in vitro fertilization treatment or for an artificial insemination treatment if the expenses were paid after November 14, 2021, provided the treatment enables you or your spouse to have a child.

However, if the expenses were paid before November 15, 2021, for an in vitro fertilization treatment, the following conditions must be met:

- Neither you nor your spouse had a child before the start of the in vitro fertilization treatment for which the expenses were paid.
- A physician certifies<sup>1</sup> that neither you nor your spouse has undergone surgical sterilization by vasectomy or tubal ligation, as applicable, other than for strictly medical reasons.
- The expenses are attributable to a maximum of three in vitro fertilization cycles: one at 36 years of age or under and no more than two at 37 years of age or over.

To be eligible, the expenses must be related to an in vitro fertilization or artificial insemination activity that meets the following conditions:

- The cost of the activity is not covered by a health insurance plan and cannot be reimbursed to the person undergoing the treatment.
- If the in vitro fertilization treatment was performed before November 15, 2021, it involved the transfer of a single embryo or, in accordance with a decision made by a physician, a maximum of two embryos, in the case of a woman 37 years of age or over.
- If the in vitro fertilization treatment was performed after November 14, 2021, it involved the transfer of a number of embryos that complies with the *Act respecting clinical and research activities relating to assisted procreation*.
- The treatment is administered at a centre for assisted procreation that holds a licence issued under the Act.<sup>2</sup>

Specifically, the following are eligible expenses:

- expenses paid for an in vitro fertilization activity carried out by a physician;
- expenses paid after November 14, 2021, for an artificial insemination activity carried out by a physician;
- expenses paid for an assessment carried out by a member of the Ordre des psychologues du Québec or the Ordre des travailleurs sociaux et des thérapeutes conjugaux et familiaux du Québec;
- expenses paid for drugs that are prescribed by a physician and whose purchase is registered by a pharmacist, and that are not covered by a health insurance plan;
- expenses paid to a business for the transportation of a person undergoing an in vitro fertilization treatment or, if the expenses were paid after November 14, 2021, an artificial insemination treatment (and, if the person cannot travel without assistance, of the person who accompanies him or her) from the locality where the person lives to a centre for assisted procreation located at least 40 kilometres away, if treatment is not offered in the person's locality;
- travel expenses incurred for a person (and, if the person cannot travel without assistance, of the person who accompanies him or her) so that the person can undergo an in vitro fertilization treatment or, if the expenses were paid after November 14, 2021, an artificial insemination treatment at a centre for assisted procreation located at least 80 kilometres away from the locality where the person lives, if treatment is not offered in the person's locality;
- travel and lodging expenses incurred for a person (and, if the person cannot travel without assistance, of the person who accompanies him or her) so that the person can undergo an in vitro fertilization treatment or, if the expenses were paid after November 14, 2021, an artificial insemination treatment at a centre for assisted procreation located in Québec, if, as certified by a physician,<sup>3</sup> there are no centres for assisted procreation in Québec within a radius of at least 200 kilometres from the locality where the person lives.

The maximum amount of eligible expenses paid by you and your spouse (if applicable) is \$20,000 per year. If both you and your spouse paid eligible expenses, the total of the expenses paid by both of you cannot exceed the maximum.

In addition, you cannot include expenses for which you or your spouse were reimbursed (or could be reimbursed), unless the amount of the reimbursement was included in your or your spouse's income and cannot be deducted elsewhere in either of your income tax returns.

Duly complete this form and enclose it with your income tax return. Do not include any supporting documents, but keep them in case we ask for them.

1. You must have a physician complete the appropriate section of form TP-1029.8.66.2M-V, *Certificate Respecting the Treatment of Infertility*, which you can get on our website, [revenuquebec.ca](http://revenuquebec.ca).  
 2. This condition does not apply if the centre is located outside Québec and the person undergoing the in vitro fertilization treatment or, if performed after November 14, 2021, the artificial insemination treatment lived outside Québec when the expenses were incurred.  
 3. See note 1.

### Rate tables for the tax credit for the treatment of infertility

In the table below that corresponds to your family situation, find the tax credit rate for your family income (line 3 of section 2.1) and enter it on line 15 of section 2.2.

#### Rate of the tax credit if you have a spouse
