## Information

### Eligible work income (line 10)

Employment income, net income from a business you carried on alone or as a partner actively engaged in the business, the net amount of research grants, Wage Earner Protection Program (WEPP) payments and amounts received under a work-incentive project. Employment income consisting solely of taxable benefits you received from previous employment is excluded from eligible work income (such income is shown in box 211 of your RL-1 slip).

#### Note

Eligible work income is income for which you can claim the deduction for workers (the amount on line 6 of Work Chart 201 of your income tax return), plus the following income:

- income received as an elected member of a municipal council, a member of the council or executive committee of a metropolitan community, an agglomeration or a regional county municipality, a member of a municipal utilities commission or corporation, or a member of a school board;
- income received as a member of the National Assembly, the House of Commons or the Senate of Canada, or the legislative assembly of a province other than Québec.

### Line 12

If the amount on line 12 is greater than \$36,590, the tax credit is reduced by 5% of the amount over \$36,590. However, the reduction does not apply if you were born before January 1, 1951, and the amount of your tax credit is \$600 or less.

You are not entitled to a tax credit if the amount on line 12:

- is \$5,000 or less;
- is **equal to or greater** than \$66,590 and you were 60 or older but under 65 on December 31, 2022;
- is **equal to or greater** than \$69,590 and you were 65 or older on December 31, 2022 (you are still eligible for the tax credit if you were born before January 1, 1951).
