This document contains two source deduction tables for Québec Pension Plan (QPP) contributions and a table showing the exemptions for irregular pay periods.

If you have 52, 26 or 24 pay periods in the year, use **table A** to determine the amounts to be withheld as QPP contributions from the pensionable salary or wages of employees who have continuous employment. **Table B** applies to non-continuous employment.

This document should be used in conjunction with the *Guide for Employers* (TP-1015.G-V), which contains detailed information concerning QPP contributions.

### Note

If you have 12 pay periods in the year, you should refer to the publication entitled *Source Deduction Tables for QPP Contributions: 12 Pay Periods* (TP-1015.TR.12-V), which can be printed out from our website.

---

## Principal changes

The QPP contribution rate has been increased from 10.20% to 10.35% for 2014, which corresponds to a contribution rate of 5.175% for the employee and 5.175% for the employer. In addition, maximum pensionable earnings for the purposes of the QPP have been increased from \$51,100 to \$52,500. The maximum annual contribution to be withheld for any employee has therefore been increased from \$2,427.60 to \$2,535.75.

### Important

Overtime pay, retroactive pay, gratuities, and similar amounts are considered salary or wages if they are paid along with the employee's salary or wages. If they are paid separately, do not use the following tables; instead, deduct 5.175% of the gross amount without taking the exemption into account.
