 to

Y	Y	Y	Y	M	M	D	D

1 Identification

1.1 Individual (including a liquidator of a succession, an executor, a trustee or an agent)

01 Social insurance number:

 File: 01.1 EF: 0 0 0 Language of communication: 02 French English

03 Name of individual: _____

04 Address: _____ Postal code:

1.2 Trust

05 Identification number:

 File: EF 0 0 0 Trust account number¹: 05a T - - - - -

06 Name of trust: _____

07 Name of trustee, liquidator of the succession or representative: _____

08 Address: _____ Postal code:

1.3 Member of a partnership

If the taxpayer is filing this return **solely** as a member of one or more partnerships that carry on logging operations, go to line 74. Otherwise, continue below.

1.4 Location of registers and books of account

09 Address: _____ Postal code:

2 Information about the logging operations

If you need more space, enclose a sheet with the requested information.

12 Start date of logging operations:

Y	Y	Y	Y	M	M	D	D

12a Has the taxpayer ceased its logging operations? Yes No

12b If you answered **Yes**, enter the date that it ceased these operations.

Y	Y	Y	Y	M	M	D	D

13 Type of logging operations: _____

14 Timber cut on the taxpayer's forest land or on timber limits granted to the taxpayer
Name of limit holder, if applicable: _____
Location of logging operations: _____
Timber-cutting rights paid in respect of this location: \$ _____
Quantity of forest products² obtained at this location: _____
If the taxpayer subcontracted the logging operations at the above-mentioned location, enclose a document containing the subcontractor's name and address and the amount paid to the subcontractor.

15 Timber cut on forest land not owned by the taxpayer or on timber limits not granted to the taxpayer
Name and address of owner of land or of limit holder: _____
Location of logging operations: _____
Income from these logging operations: \$ _____
Quantity of forest products obtained at this location: _____

16 Sale of the following property: forest products, timber-cutting rights, timber limits and forest land (separate forest products from the other property sold)
Name and address of purchaser: _____
Type and quantity of forest products sold: _____

2 Information about the logging operations (continued)

17 Purchase of the following property: forest products, timber-cutting rights, timber limits and forest land (separate forest products from the other property purchased)
 Name and address of seller:

 Type and quantity of forest products purchased:

18 Location of logging operations not listed above
 a. Township: _____
 County or district: _____
 b. Township: _____
 County or district: _____

3 Income from logging operations

3.1 Net income from logging operations carried on in Québec

Check the applicable box(es) and complete the corresponding lines.

A – Cutting of standing timber in Québec or acquisition of forest products that were derived therefrom and sold in Québec
 Gross income from the cutting, acquisition, transportation and sale of forest products 20 _____
 Related expenses (attach an itemized statement of expenses related to the activities listed on line 20) – 21 _____
 Subtract line 21 from line 20.
 Carry the result to line 68. **Net income (or net loss)³ from logging operations = 22** _____

B – Cutting of standing timber in Québec or acquisition of forest products that were derived therefrom and sold outside Québec⁴
 Gross income from the cutting, acquisition, transportation and sale of forest products 23 _____
 Related expenses (attach an itemized statement of expenses related to the activities listed on line 23) – 24 _____
 Subtract line 24 from line 23.
 Carry the result to line 69. **Net income (or net loss)⁵ from logging operations = 25** _____

C – Sale of forest land, timber limits⁶ or timber-cutting rights in Québec
 Capital gains 26a _____
 Inclusion rate × 26b _____ **50%**
 Multiply line 26a by 50%. **Taxable capital gains = 26** _____
 Gross income from the sale of forest land, timber limits or timber-cutting rights in Québec 27a _____
 Related expenses (attach an itemized statement of expenses related to the activities listed on line 27a) – 27b _____
 Subtract line 27b from line 27a. = _____ + 27 _____
 Add lines 26 and 27.
 Carry the result to line 70. **Net income (or net loss)⁷ from logging operations = 28** _____

D – Cutting of standing timber in Québec or acquisition of forest products that were derived therefrom and processed by or for the taxpayer in a sawmill, pulp or paper plant or other plant for the processing of forest products in Canada
 Net income (or net loss) from all sources, calculated in accordance with Part I of the *Taxation Act*⁸ 29 _____
Net losses calculated on lines 22, 25 and 28 (enter the amounts **as if** they were **positive**)
 • Amount from line 22, if applicable 30 _____
 • Amount from line 25, if applicable + 31 _____
 • Amount from line 28, if applicable + 32 _____
 Net losses from **sources other than** logging operations, the processing of forest products in Québec or the transportation and sale of timber, forest products and products derived therefrom (enter the amount **as if** it were **positive**) + 33 _____
 Add lines 30 through 33. = _____ + 34 _____
 Add lines 29 and 34. = 35 _____

3.1 Net income from logging operations carried on in Québec (continued)

Taxable income according to the federal income tax return	90	
Income from logging operations calculated for federal income tax purposes according to the financial statements	91	

8 Certification

I certify that all of the information provided in this return, in the financial statements and in any other attached documents is accurate and complete.

Name of individual, trustee, liquidator of the succession or representative

Title or position

Area code

Telephone

Extension

Signature

Date

13KW ZZ 49517587

Notes

1. This account number is shown on the federal *Trust Income Tax and Information Return* (form T3RET).
2. Forest products do not include wood chips.
3. The net income (or net loss) must be determined in accordance with Part I of the *Taxation Act*.
4. The Minister of Revenue of Québec may determine the value of forest products sold outside Québec.
5. See note 3.
6. In the case of the sale or deemed disposition of forest land or a timber limit, only the income attributable to standing timber is to be included in the calculation of income from logging operations. This income is taxed either as business income or as a capital gain, according to Part I of the *Taxation Act*.
7. See note 3.
8. Please provide a statement in which the net income according to the financial statements is reconciled with the net income determined in accordance with Part I of the *Taxation Act*.
9. The property in question is depreciable property used in the year for the processing of forest products or of products derived from forest products.
10. This is the portion of the net income pertaining to the quantity of standing timber cut outside Québec and to the quantity of forest products acquired that were derived from the standing timber.
11. All quantities for a given forest product must be expressed using the same unit of measure.
12. On line 73, enter the total income from logging operations (amount on line 72) if:
 - there are 12 months in the taxation year and the amount on line 72 exceeds \$65,000; or
 - there are fewer than 12 months in the taxation year and the amount on line 72 exceeds the amount obtained by dividing the number of days in the taxation year by 365 and multiplying the result by \$65,000.
 Otherwise, enter 0 on line 73.
13. Under the *Taxation Act* and the *Income Tax Act*, an individual can deduct:
 - on line 17 of Schedule E of the personal income tax return or line 134 of the trust income tax return (Québec returns), the **lesser** of the following amounts:
 - the income tax payable,
 - 1/3 of the logging tax payable before the reduction, or that would be payable (see the paragraph below); and
 - in Schedule 1 of the federal income tax return, the **least** of the following amounts:
 - the income tax payable,
 - 2/3 of the logging tax payable,
 - 6 2/3% of the income from logging operations,
 - 6 2/3% of taxable income.

If the logging tax payable before the reduction (line 77) exceeds the amount of the deductions determined under the *Taxation Act* and the *Income Tax Act*, the excess amount must be used to reduce the logging tax payable for that year, provided the reduction does not reduce the amount deducted for the year in the federal income tax return, calculated as described in the paragraph above. If this condition is not met, the excess amount must be claimed as an additional deduction with respect to the Québec income tax payable for the taxation year covered by this return or for a subsequent taxation year.

Who is required to complete this return?

This return is to be completed by any individual or trust (both referred to as a “taxpayer” herein) that carries on logging operations, or that is a member of one or more partnerships that carry on logging operations.

Multiple logging operations

Where the same taxpayer carries on two or more logging operations as owner, lessee or operator, or where the same taxpayer derives income from two or more logging operations, these logging operations are deemed to constitute a single logging operation, and not separate operations.

Obligation to file this return

A copy of this return must be filed for each taxation year by a taxpayer that is required to pay logging tax (see “Liability” below) or that realizes a taxable capital gain further to the sale of forest land, timber limits or timber-cutting rights.

Liability

A taxpayer must pay tax equal to 10% of the aggregate of the following amounts:

- Its total income from logging operations, if the income exceeds \$65,000. If there are fewer than 12 months in the taxpayer’s taxation year, the \$65,000 threshold must be multiplied by the result obtained by dividing the number of days in the taxation year by 365. The taxpayer’s total income is calculated on line 72 of this return.
- Its share of a partnership’s total income from logging operations for the partnership’s fiscal period ending in the taxation year covered by this return, if the income exceeds \$65,000. The partnership’s total income is calculated on form TP-1179.S-V, *Partnership Income from Logging Operations*.

Payment of the logging tax

The logging tax must be paid as follows:

- one-half of the estimated logging tax for the taxation year, not later than the last day of the taxation year (instalment);
- the balance of the estimated logging tax for the taxation year,
 - not later than April 30 of the following year, in the case of an individual;
 - within 90 days following the end of the taxation year, in the case of a trust or a succession (commonly called an “estate”).

Interest on an instalment

Interest capitalized daily at the rate determined by regulation is charged on any instalment (or portion thereof) that is not paid by the due date. Additional interest of 10% per annum, capitalized daily, is charged on any instalment (or portion thereof) that is not paid by the due date, except where the amount paid corresponds to at least 75% of the amount required.

Interest accrues from the last day of the taxation year to the date the instalment was paid or to the due date for paying the balance of tax, whichever is earlier.

Interest on the balance

Interest capitalized daily at the rate determined by regulation is charged on any unpaid balance of tax for the period from the due date for paying the balance of tax to the date of payment.

Filing deadline

A duly completed copy of this return must be submitted to us, together with any required documents, by the following dates:

- in the case of an individual, by April 30 of the following year (or by June 15 of the following year, if the individual or the individual’s spouse is reporting business income);
- in the case of a trust or a succession, within 90 days following the end of the taxation year.

Penalty

Any taxpayer that files this return late is liable to a 5% penalty on the balance not paid by the due date, and to an additional 1% penalty for every month the return is late, to a maximum of 12 months.

Required documents

The following documents must be enclosed with the return, as applicable:

- the balance sheet, the income statement and, if applicable, the other financial statements;
- the tables showing continuity of depreciable property and the capital cost of each property;
- a list of investments and a table showing the annual income derived from the investments;
- an itemized list of assets that were purchased from or sold to partners showing the price paid in each case;
- a duly completed copy of form TP-1179.S-V for each partnership, and the documents specified on the form (in the case of a taxpayer that is a member of one or more partnerships that carry on logging operations);
- the schedules.

Where an amount entered in this return does not correspond to the data appearing on the enclosed document or documents, a reconciliation must be done on a separate sheet enclosed with this return.

Mailing the return

Mail a duly completed copy of this return, together with any required documents, to us at the following address: 3800, rue de Marly, Québec (Québec) G1X 4A5.

You can contact us at one of the following numbers:

- 418 659-6299 (in the Québec City area)
- 514 864-6299 (in the Montréal area)
- 1 800 267-6299 (toll-free)

Definitions**Forest products**

Logs, even if flatted, railway ties and spoolwood.

Logging operations

The activities described in section 3.1 of this return.

Timber resource property

The right or licence to cut or to remove timber from a timber limit or territory in Canada. In this return, a timber resource property is also considered to be a timber limit.

For more information, see sections 1176 to 1186 of the *Taxation Act*.
