

Application to Obtain or Deactivate a Server Authorization Code

Mandatory Billing in the Remunerated Passenger Transportation Sector

Complete this form if you administer a remote server and you send us prescribed information from one or more operators of a taxi business,¹ as required under the mandatory billing measures in the remunerated passenger transportation sector.

You must file this form with us to apply for an authorization code for a digital certificate you can use to:

- access our cloud-computing environment (the “WEB-SRM”);
- generate a digital signature for all transactions sent by your server;
- ensure the non-repudiation of transaction data sent by your server.

You can use your server to send us SRS transaction data that will be associated with you in our systems.

You can also use this form to apply for the deactivation of your authorization code if you stop sending transaction data with your server and you no longer need a digital certificate.
