

INFORMATION FOR SOFTWARE USERS: TRUSTS

Before using a software product to file the trust income tax return, make sure that the software developer has received an authorization number from Revenu Québec for that product for the year in question. This number must be visible in the upper right-hand corner of the first page of all forms produced by the software.

Revenu Québec does not verify whether the software complies with all legal provisions. We also do not check the accuracy of all the calculations and data transfers performed by the software. You are responsible for using the software correctly and for any omissions or errors in the information provided. Consequently, Revenu Québec cannot be held responsible for programming errors in the calculation of income tax payable.

Since software developers regularly update their products, you must ensure that you have the latest version of the software.

The names of authorized software and their developers are available on the Revenu Québec website (revenuquebec.ca).

You must also send the breakdown of the amounts entered on the lines of schedules A and B that are automatically generated by the software.

Do not send Revenu Québec the printed version of the *Trust Income Tax Return* (form TP-646-V), its schedules or related forms, because the data in those documents is also contained in the TPF-646.W-V, TPF-646.X-V, TPF-646.Y-V and TPF-646.Z-V keying summaries. However, you must keep the documents in case we request them.

NOTE

If you are filing more than 50 RL-16 slips, you **must** send them online (in an XML file).

If you are filing fewer than 51 RL-16 slips, either send them online (in an XML file) or by mail or other means (on paper). In the case of paper RL slips, send us only **copy 1** of each slip.

All the documents must be stapled in the upper left-hand corner. Do not staple together the returns of more than one trust or the returns of the same trust for different years.

3.2 Addresses

Documents must be sent to the address closest to the trust's place of residence:

Revenu Québec
3800, rue de Marly

- the format of forms TPF-646.W-V, TPF-646.X-V, TPF-646.Y-V and TPF-646.Z-V does not meet our requirements (the printer must be compatible with the authorized software);
- the form has not been authorized by Revenu Québec or contains an invalid authorization number;
- amounts (dollars and cents) are entered incorrectly in the boxes provided;
- print quality is poor (illegible or shifted data); or
- the form is received in poor condition.
